Our Products

Social Listening

Lucidya Social Listening gathers and analyzes data related to your brand, customers, and competitors across multiple social media platforms.

OmniChannel

Lucidya Omnichannel gathers and analyzes customer data across all of your owned channels, including direct messages to your social media accounts, instant chats (WhatsApp Business + Intercom), emails, ratings, reviews (Google My Business), and calls.

Survey

Uncover unconventional insights about your customers through comprehensive multi-question surveys, and extract a complete picture of your customer's experience with your brand.

CDP

Manage your customer data from various sources to create personalized profiles. All insights you want to enhance customer interactions, optimize marketing strategies, and improve overall customer experiences in one place.

Engagement

Our engagement product uses innovative AI to optimize your customer service responses in terms of speed, accuracy, and empathy, while keeping your CS agents motivated with a built-in gamification system and rewards.

Discover our Add-ons

Luci

The one and only virtual analyst who will give you the power to talk to your data in simple terms, using your language. which integrates Lucidya's capabilities with the power of AI, enables you to summarize millions of posts and suggest personalized solutions tailored to your brand.

AI Agent

A virtual assistant that acts as a customer service agent, responding to customer inquiries using generative AI in various languages based on the brand's policies, information, and tone.

Call Analysis

Gain insights from analyzing hundreds of voice calls between customers and your call center. Understand sentiment analysis, topics, and themes, and measure satisfaction rates with the same accuracy level as text analysis in Lucidya.
